PROFESSIONAL EXPERIENCE

Principal, Fore Delta Associates, LLC 2014-Present

- Leverage extensive IT career accomplishments with organizations, government agencies, and commercial corporations from complex global implementations to small pilot/proof of concept projects.
- Bridge gap between organizational change management and project management to ensure seamless integration.

Deputy Program Manager, Dynamic Systems, Inc. 2012-2014

- Championed delivery for newly formed Systems Integration Practice, focused on integrating ITIL oriented applications into an enterprise construct for a globally deployed US Air Force weapons system.
- Facilitated budget management of 7 concurrent projects with over (\$10M) in labor and expense budgets over 18 months
- Led a team of up to 42 direct and subcontracted personnel and ensured the timely deliver and quality of more than 100 contract data items.
- Proactively created and administered multiple overlapping and dependent project schedules.
- Liaised with customer program management personnel to successfully plan and meet milestones and goals.

Sr. Principal Consultant / Project Manager, Oracle National Security Group (formerly Sun Federal) 2010-2012

- Provided single point of contact project management integrating multiple prime and sub-contracts/contractors into a single unified Agile/Waterfall (hybrid) software delivery.
- The three year (\$10M) SDLC project pioneered delivery of a security solution, the first enterprise application for this major Air Force system consisting of over 35 applications deployable globally.
